

Feeding the Homeless and Needy

Giving back to the community had always been a primary concern for FusionExcel International. Last January 31, Mr. Fortune Cumigad of FusionExcel Quantum Inc. (fusionexcelsocal.com), spearheaded the first in a series of Feeding the Homeless & Needy projects for 2010.

In cooperation with the Filipino-American Association of Antelope Valley which Mr. Cumigad also heads, and Alpha Phi Omega of Greater Los Angeles, more than a dozen FusionExcel distributors and users volunteered their time and services in making this project a success. As early as 11 am, the volunteers have started bringing in the food and preparing the venue of the feeding, the Grace Resource Center in Lancaster.

By 1 pm, countless homeless and needy people patiently stood in line waiting for their turn to savor a well-prepared sumptuous meal. More than 260 persons were fed during that afternoon.

Bring joy to the children and the needy will always be in FusionExcel's agenda.
